Dear Hiring Manager,

I am pleased to write this letter of recommendation for my coworker, Mr. Maren Patterson. Maren has been working for The Center for Learning with Technology, at Harding University for close to a year and I am absolutely amazed by his creativity and passion for design. He is a professional, who takes pride in his work.

As Instructional Designers, we work closely together on many projects. Maren is always ready to assist in any way necessary and is helpful in all aspects needed. His quiet, gentle spirit allows him to interact with graciousness towards others. Maren is intelligent and dependable and he has the ability to make any project shine because of his outstanding abilities and professionalism.

Because of his versatility in graphic and web design, video editing and programming, he would be an asset to any company that seeks his skill set. These skill sets were used on various jobs completed by The Center for Learning with Technology, and they were well done. In addition to creativity in design, he possesses strong morals, is reliable and acts responsibly.

I would recommend Maren for any position that requires his skill set and knowledge. He would be an asset to many environments, especially an environment that would allow him to initiate and complete projects related to design and development. Please contact me via telephone 501-279-5466 or email nvalentine@harding.edu, with any questions you may have.

Sincerely,

Naomi Valentine
Sr. Instructional Designer
Harding University
