WEBSITE DEVELOPER / DIGITAL CONTENT DEVELOPER, Escape Chambers 2016 - 2018

"I have been repeatedly blown away by the projects he puts together... Besides being incredibly professional, polite, and an overall great human being to work with, he has a unique sense of creativity and continues to knock it out of the park when we task him with projects. " (Ben Holt, Marketing Director)

- After redesigning the company's core website to enhance user experience, I developed, published, and managed 9 websites for the company. (WordPress, HTML, CSS, Bootstrap)
- Additionally I designed associated graphics for marketing projects and games, produced and edited movie style video trailers for each of their games offered, with included voice over work, and some basic product photography.
- Lastly I was able to provide entry level virtual reality game world development as the company pursued virtual reality game offering.
